SG2 wants to thank ISO/IEC JTC 1/SC 6/WG 7 for its request to collaborate on its Technical Report on Naming and Addressing in Future Network and would like to express its interest in the development of ISO/IEC TR 29181-2 as a joint effort to develop common text in accordance with the provisions of Rec. ITU-T A.23, Annex A | ISO/IEC JTC 1 Standing Document 3 "Guide for ITU-T and ISO/IEC JTC1 cooperation. In addition, SG2 would like to inform ISO/IEC JTC 1/SC 6/WG 7 that it is working on a Future of Numbering Report in which this collaboration would be beneficial.

SG2 looks forward to receiving a copy of ISO/IEC TR 29181-2 so that the document can be reviewed and responses can be prepared to address the following items that were identified in your document N14456:

ISO/IEC TR 29181-2 will serve as a guideline for Future Network standardization on naming and addressing schemes.

- To examine the relationship of a naming and addressing scheme with the Future
- Network project,
- To explore the significance of naming and addressing in a clean slate designed
- network architecture,
- To discuss the problems in existing network NAS structures,
- To find out the gaps between old NAS and the ambitions Future Network objectives,
- And to offers a guideline of NAS requirements and future work plans.
